DETAILED ACTION

Election/Restrictions

1. In response to the restriction requirement filed by Examiner on 1/12/2007, Applicant argues that the Examiner's requirement for election is improper because all of the claims in the application are either generic to the species identified by the Examiner or are drawn to the same one of the two species identified by the Examiner, while taking no position regarding if the species identified by the Examiner are patentably distinct.

2. Examiner finds the above reply to the restriction requirement to be incomplete for the following reasons:

A reply to the restriction requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The requirement is still deemed proper and is therefore made FINAL.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ricardo L. Osorio whose telephone number is 571-272-7676. The examiner can normally be reached on Monday through Thursday from 7:00 A.M. to 5:30 P.M. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bipin Shalwala whose telephone number is 571-272-7681.
